

## Getting Started

## Setting Up

Use this area to identify the user for sharing purposes  
 - other settings maintained here too

## Working with Lists

Show's all my lists, and a little info about them.

Navigate to specific lists from here

## New List

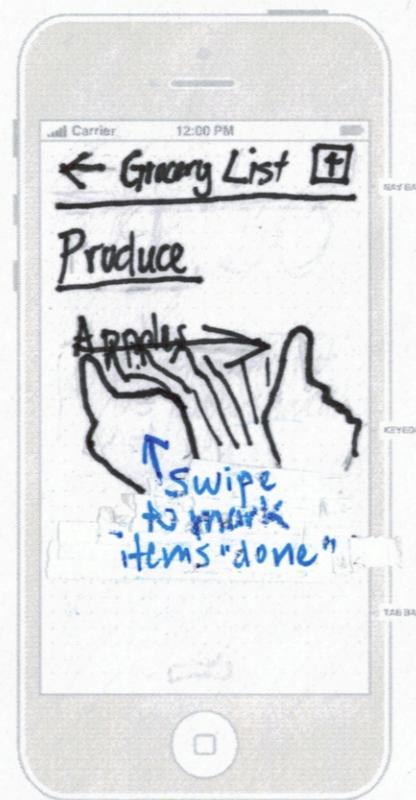

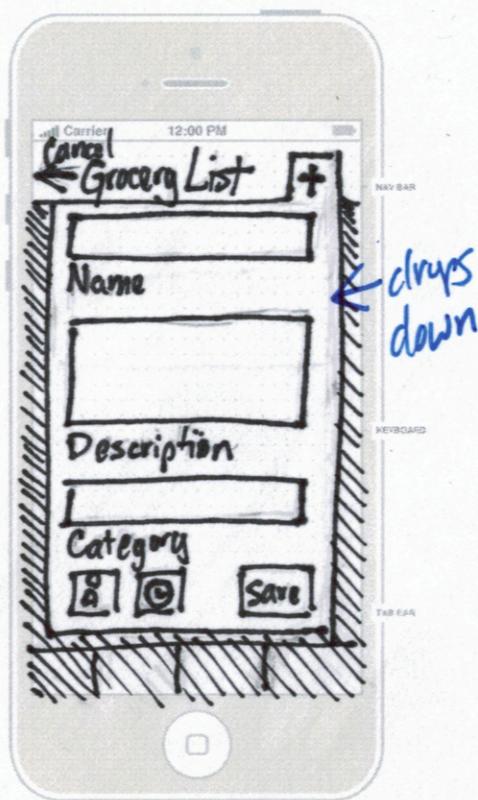

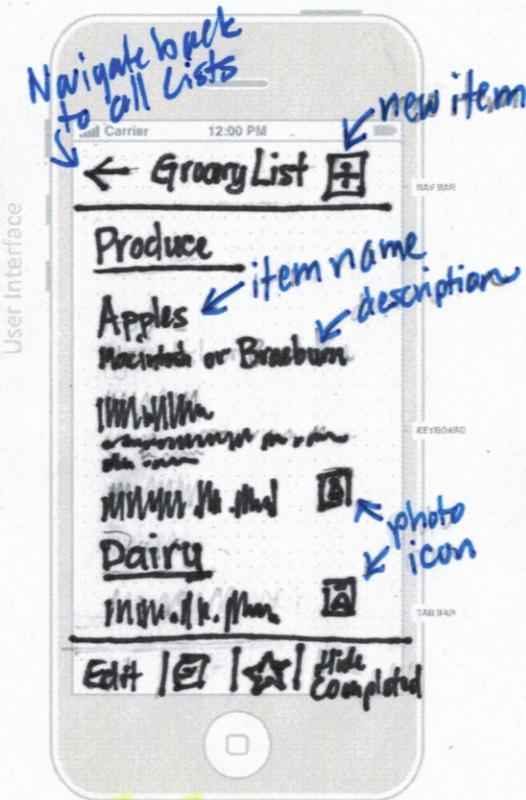

Use the same screen to edit list info

SCH.

# Lists App

User Interface

Working With  
a Specific List

Add an item

Adding from  
a dropdown  
will work - but  
seems slow for  
lots of items..

Mark items
